APPLE RECLAIMS NO. 1 CROWN

iPhone maker dethrones Samsung from the top spot on the global smartphone tally for the first time in five years

San Francisco, Feb 1

APPLE reclaimed the throne as the world's top smartphone maker for the second year, beating out rival Samsung in a global market that is expected to reach \$180 billion, both hands by year-end, according to a new report from analyst firm Strategy Analytics.

The report, which is based on data from the first quarter of 2017, shows that Apple's iPhone sales grew by 10.5% in the first quarter, while Samsung's sales fell by 1.5%. This marks the first time since 2013 that Apple has led the global smartphone market. The report also notes that the smartphone market is expected to grow by 15% in 2017, with emerging markets like India and Brazil driving much of the growth.

before. Analysts on average sent his shares up 3% in after-hours trading.

But the gains were tempered by Apple's cautious quarter, which it mainly attributed to a weak iPhone 7 launch, which hurts companies like Samsung that sell a majority of their products overseas, by forcing them to raise prices, which depresses unit sales, or sacrifice margins.

Apple sold 78.29 million iPhones in the fiscal first quarter ended December 31, 2016, according to the company's earnings report.

'Demonetisation great move for India'

Mr. Sanjay Reddy, Chairman of the National Stock Exchange of India (NSE), has praised the government's decision to demonetise 500 and 1,000 rupee banknotes as a "great move" for the country's economic growth. He stated that the move would help in the formalisation of the economy and reduce the circulation of black money. Reddy also mentioned that the demonetisation exercise would lead to an increase in tax revenues and improve the overall financial health of the country.

MR. SANJAY REDDY, CHAIRMAN OF THE NATIONAL STOCK EXCHANGE OF INDIA

WE'RE THRILLED WE SOLD MORE IPHONES THAN EVER BEFORE AND SET ALL-TIME REVENUE RECORDS FOR PHONE SERVICES, MAC AND APPLE WATCH... AND WE'RE VERY EXCITED ABOUT THE PRODUCTS.

ed from Samsung's much-publicised recall of the five-prime Galaxy Note 7.

Apple is heavily dependent on the success of iPhones, which account for around 60% of its total revenue. Analysts and investors have watched the company's iPhone sales with interest, especially in light of the larger iPhone 7 launch in the first quarter.

Revenue in the services business, which includes the App Store, Apple Pay and iCloud, also jumped 14.4% to \$7.1 billion in the first quarter. This growth was driven by the company's expansion into new markets and services, as well as increased revenue from subscriptions. *Reuters*

Decision on RJIO today: Trail to HC

New Delhi, Feb 1: Trail to High Court that has taken a decision on various telecom service providers representation of RJIO will be communicated to them by Thursday. The Telecom Regulatory Authority of India (Trai), however, did not disclose in court what that decision, saying that it will be communicated to the representatives.

The proposed merger between the two entities will fetch the combined entity up to 850 bps in cost savings, even though the move is unlikely to lead to better pricing power for operators in the short-term, says a report. "We expect the merger of RJIO and Vodafone to improve the competitive landscape in the market by 2016-17 as a result of cost savings," Fitch said in a note on Tuesday.
