## Oil jumps to over 2-year high as US supplies tighten

DEVIKA KRISHNA KUMAR  
New York, June 23

**OIL PRICES ROSE** on Wednesday, with Brent climbing above \$76 a barrel to its highest since late 2018, after data showed US crude inventories declined and reinforced views of a tightening market as travel picks up in Europe and North America.

US crude inventories fell by 7.6 million barrels last week to June 18 to 459.1 million barrels, the US Energy Information Administration said. Stockpiles at Cushing, Oklahoma, the delivery point for US crude futures, fell by 1.8 million barrels to the lowest since March 2020. Gasoline demand also edged higher last week, helping to support prices.

"People are getting back in their cars again and that's

showing up in the numbers in a big way. That's going to keep the upward pressure on prices," Phil Flynn, senior analyst at Price Futures Group in Chicago, said.

Brent crude rose \$1.02, or 1.4%, to \$75.83 by 10:49 am ET (1449 GMT), having touched its highest since October 2018 at \$76.02 after the EIA data. US West Texas Intermediate added \$1, or 1.4%, to \$73.85 and hit \$74.25, also the highest since October 2018.

"The inventory relief could provide another reason for the OPEC+ alliance to boost production further from August and the coming meeting next

week is expected to be material for policy and prices going forward," said Rystad Energy's oil markets analyst Louise Dickson.

Brent has gained more than 45% this year, supported by supply cuts led by the Organization of the Petroleum Exporting Countries and its allies (OPEC+) and as easing coronavirus restrictions boost demand. Some oil industry executives are even talking of crude returning to \$100, a

level last reached in 2014.

"Underlying demand in the physical market means that any corrections lower will remain shallow and short," said Jeffrey Halley, analyst at brokerage OANDA.

OPEC+, which meets on July 1, have been discussing a further unwinding of last year's record output cuts from August but no decision has been made on exact volumes, two OPEC+ sources said on Tuesday. —REUTERS

2. Post lockdown announced on account of COVID-19 pandemic by State/Central Govt. w.e.f. 23rd March, 2020. Company has re-started its operations on 10th April 2020 and 20th April 2020 for Baddi & Guna unit respectively. However, the economic activities in the country again disrupted from April 21 due to impact of second phase of COVID-19. The company's operation was also affected which is now under process of stabilisation. The Company estimates to recover the carrying amount of all its assets including inventories and receivables in the ordinary course of business based on information available on current economic conditions. These estimates are subject to uncertainty and may be affected by the severity and duration of pandemic. The Company is continuously monitoring any material changes in future economic conditions.  
3. The above is an extract of the detailed format of Quarterly/Yearly Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing and Other Disclosure Requirements) Regulations, 2015. The full format of the Quarterly/Yearly Financial Results are available on the website of the BSE Limited (www.bseindia.com) and on the website of the Company at the URL www.dsi-india.com.
