		Investors may note the essential difference between a segregated portfolio and non-segregated portfolio as follows:																																								
		<ul style="list-style-type: none"> Where the portfolio is not segregated, the transactions will continue to be processed at NAV based prices of the total portfolio. There will be no change in the number of units remaining outstanding. Where the portfolio is segregated, equal number of units are created and allotted to reflect the holding for the portion of portfolio that is segregated. Once the portfolio is segregated, the transactions will be processed at NAV based prices of main portfolio Since the portfolio is segregated for distressed security, the additional units that are allotted cannot be redeemed. The units will be listed on the recognised stock exchange to facilitate exit to unit holders. Upon realisation of proceeds under the distressed security either in part or full, the proceeds will be paid accordingly. Based on the circumstances and developments, the AMC may decide to write off the residual value of the segregated portfolio.
